

## PVC Split duct with snap lock

- **Material:** PVC
- **Execution:** with H-profile
- **Colour:** black
- **Remarks:**

The installation is easily achieved by jointing the two halves with the H-Profile (the profile is adhered one-sided). Without any sleeves a continuous line is achieved if the upper halve is displaced. Additionally, during final assembly the H-Profiles can be connected with glue fix to the halves

item-no.	dimensions d x s [mm]	length L [mm]	kg / m	packing
